

# JACOSELLO

**JACOMIEL is proud to present its new product:**

**The Ultimate Food Wrap and Sealer!**

**Ecological, sustainable and biodegradable!**

**Handmade by JACOMIEL! We've created wraps that provide a versatile and durable solution for sustainable food storage.**

**Made from 100% cotton, beeswax, organic jojoba oil and tree resin.**

**JACOSELLO is washable, reusable, and compostable, a brilliant alternative to plastic wrap and aluminum paper for preserving your food naturally and longer!**

**How to use it: It's self-adhesive so just use the pressure and warmth from your hands to shape and mold JACOSELLO over or around your food (fruits, vegetables, breads, pastry etc.) and bowls of all kinds. To clean it, use cold water and biodegradable soap (without alcohol).**

**\*Avoid raw meat, high potential for cross-contamination.**

**Different sizes are offered, visit our Web site for formats and prices. You can also order online!**

**Let's consume responsibly and fertilize our planet! ♡ ●  
Beautify your kitchen and refrigerator with JACOSELLO ♡ ♡**

**Visit our Web Site and follow us on Instagram (Jacomiell) to see our latest photos and videos of our ecological food wrap and you are sure to be convinced of its efficiency.**
